

X:OR ACADEMY

Learning Management System

GRAPHICAL USER MENUS

The Academy interface is made up of a series of graphical toolbars which makes it clear and easy to navigate and utilise. It can be easily configured to mirror the structure of your organisation and there are many facilities to personalise the learning space for the users.

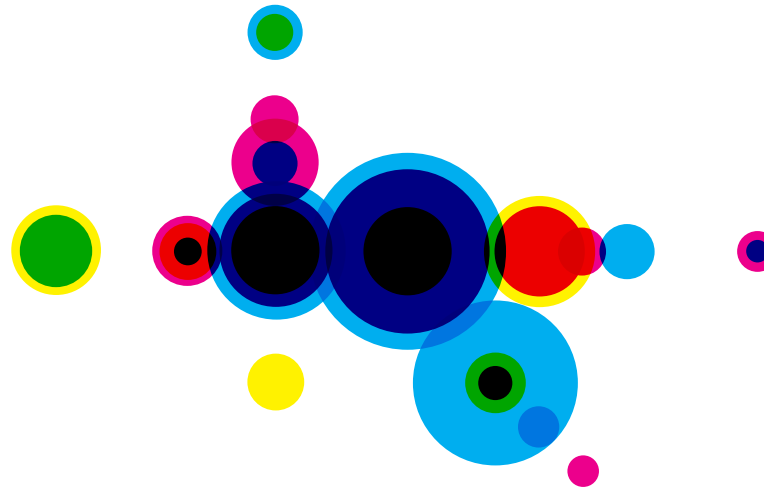

COURSE CATALOGUE

The Academy can be preloaded with courses titles from XOR (covering Health and Safety, Security, Diversity) or courses from any supplier that are SCORM compliant.

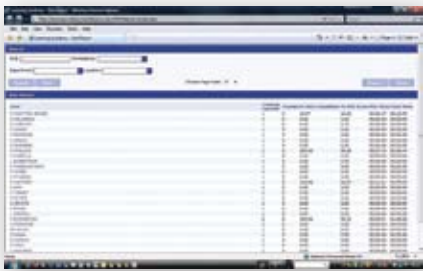

FLEXIBLE STRUCTURE

The Academy is extremely flexible - providing a learning environment that is completely in the hands of the individual learner. There are facilities for book-marking, note-taking and self-assessment

X:OR
Think Learning

THE XOR ACADEMY IS EASY TO IMPLEMENT, EASY TO ADMINISTER AND OFFERS A SEAMLESS GRAPHICAL INTERFACE THAT ENABLES USERS TO MANAGE THEIR OWN LEARNING.

ROBUST AND SCALEABLE

The Academy has been built on the latest Microsoft server technology and is hosted on XOR's server farm offering a fully managed and load-balanced solution.

IN-DEPTH REPORTING

The XOR Academy provides a wealth of reports for training administrators including reporting on: Training Use, Users Performance, Group Performance, Effectiveness of training. The Reports are easy to access and to use.

TESTING AND SELF ASSESSMENT

The Academy and Training Courses come with a range of Assessments Tools for self-paced testing, end of courses tests and work-place assessments. There is built in support for creating new assessments.
